Preventive Plans

ENJOY GREAT BENEFITS

- Discounted parts pricing for covered services
- Priority scheduling
- Genuine OEM parts and lubricant
- Factory-certified technicians

ANNUAL MAINTENANCE AGREEMENT INCLUDES:

One (1) 50-hour service for new compressor(s)

- Change oil filter and clean scavenge line
- Pull compressor fluid sample to maintain factory extended warranty
- Visual inspection to ensure proper cycling
- Check for oil leaks, loose connections, and undue wear

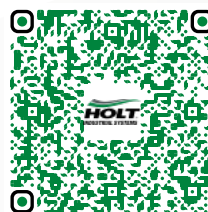

Three (3) quarterly visits performed every 2,000 operating hours or every 3 calendar months, whichever comes first

- Change air inlet filter and fluid filter
- Pull compressor fluid sample to maintain factory extended warranty
- Visual inspection to ensure proper cycling
- Check for oil leaks, loose connections, and undue wear
- Make additional recommendations as needed

One (1) annual visit performed every 8,000 operating hours or every 12 calendar months, whichever comes first

- Change air inlet filter, fluid filter and air/oil separator
- Drain and replace compressor fluid
- Remove and power wash compressor coolers (air-cooled units only)
- Inspect compressor controls
- Change pre-filter element on refrigerated dryers
- Change pre-filter, after-filter, control air filter and mufflers on desiccant dryers
- Visual inspection to ensure proper cycling
- Check for oil leaks, loose connections, and undue wear
- Make additional recommendations as needed
